Horstmeyer, Derek, ‘Artificial General Intelligence and the Fed: AI’s Effect on Federal Reserve Decision-Making and Communications,’ 2025. *Hatch Center Policy Review* (6), 15-22.

Horstmeyer, Derek, and Kara Wells, “When Do Governance Mechanisms Matter Most?,” 2020. *Quarterly Journal of Finance* (1), 1-52.

#### **Programs and Classes Created at GMU**

---

#### The Future of Finance Lab

- Description: Created the Future of Finance Lab which serves as an inter-disciplinary hub between five schools at Mason and current has fifteen affiliate members. The Lab connects reserachers in stablecoins, blockchain, tokenization, AI, and quantum computing as it applies to finance (connecting firms and researchers in the space).

#### FNAN 477: Student Managed Investment Fund

- Description: Created the first student managed investment fund at GMU along with the Board of Trustees. The students manage an all equity portfolio (money granted by the Board from the endowment). This class is an immersive learning experience in the world of portfolio management since the students make all decisions and trades amongst themselves, and is the first course at GMU to earn the 'MPact' designation (research accreditation).

#### Costello Fellows on Wall Street

- Description: Constructed and lead GMU's first networking event with Wall Street hiring firms. Annually, 25 GMU students are selected to tour six Wall Street firms. Firms toured and visited include JPMorgan, Wolfe Research, Apollo Global, Duff & Phelps, Oppenheimer, Kroll, S&P Global, Moody's, Howde Re, Houlihan Lowkey and Cantor Fitzgerald.

#### M.S. in Finance with dual CFA and Quantitative tracks

- Description: Designed and created an MSF at Mason with two tracks: a CFA compliant track and a Quantitative track. The CFA track prepares students to sit for all three levels of the CFA exam and affords them scholarships to do so. The Quantitative track (STEM certified) prepares students for the data heavy world of today and includes topics on fin-tech, data mining, and HFT.

#### B.S. in Financial Planning & Wealth Management

- Description: Designed and launched GMU School of Business' first new undergrad degree in twenty years - Financial Planning and Wealth Management. Included in the launch of this new degree program was the creation of the FPWM Advisory Board, gaining the program CFP Board approval (CFP accredited program), and creating the FPA Student Chapter at Mason.

#### Mason's Alpha Challenge

- Description: Launched and created GMU's first stock pitch competition open to all GMU students. Students from around the university compete in a equity analyst pitch competition where professional money managers judge their research, data work, and overall market assessments.

#### CFA Institute Curriculum Compliance

- Description: Changed the GMU Finance curriculum so that it was in compliance with CFA Institute standards. This alteration included creating a CFA Ethics class within the FNAN program and updating the content of our capstone class. This led to the seven new scholarships for our students to take the CFA exam, CFA test materials to prep our students, and a great set of materials to market our program to potential undergrads.

FNAN 498: Contemporary Topics in Finance

- Description: This course was created to serve as the capstone course for the FNAN area. The course covers various contemporary issues such as the 2008 crisis and the Federal Reserve-Treasury's intervention, currency issues in emerging economies, stability of the European Union, and modern day regulation.

Ph.D. Seminar: Finance for Economists

- Description: A trial course of Finance for GMU Econ Ph.Ds This course was structured to give Ph.D. candidates in Economics a complete overview of topics in finance and what the current state of research is in the academic world of finance.

MGMT 491/BENG 499: Biotechnology Commercialization

- Description: Created with Laurence Bray (Prof. in Bioengineering). The class is designed to be a complete interdisciplinary class with students from BENG, MGMT, and FNAN. Students learn from each others' expertise in different fields to design, finance, market, and pitch a revolutionary piece of technology, competing in a 'Shark Tank' style competition.

## Teaching Experience

---

EMBA 703: Financial Markets, George Mason University, 2015 - 2016

MBA 643: Managerial Finance, George Mason University, 2017 - 2018
